

Safety
look at Daily Hazard Analysis (employee)
associated risks & measures
And mgmt verify
Take signature from tablet
from employees

Suggestions: (Safety) :-

Tool box talks
subordinates &
everyone

they talk about what they're going to
co-ordinate

they know Every week they take
do
a safety topic &

They want it to digitalized
disseminate
link it to calendar & set reminders
regarding tool box talks

"Safety is Money is not
tant people's lives"

important, purposes are!

Make safety check regular

Activities - (different sites for different tasks)

admin wise - document control

Box → documents

Poolone to link all that stuff

Handle all the money

Consists all instruction how to build a building

Problem they faced →

1) Reviewing architecture design & finding out anomalies in that

2) How they specifically do the work

Document control / Admin Architectures / Subcontractors

Suggestions -

In the field, (interlink documents
to show it to subcontractors

(REV)

looking for overlay of documents

Filters

Being able to navigate through
documents back & forth

PayPal :-

→ Payapps
